# MOTOROLA **XPRT**

## sell it in 30 seconds

The Motorola XPRT™ is a sleek, compact smartphone with a very attractive entry level price point. It's the best of both worlds, with an optimized QWERTY keyboard layout, perfect for messaging, and the touchscreen display for ease of use. This full-feature smartphone has a 1 GHz processor for speed and web browsing with Adobe® Flash® 10 support. Access your calendar, email, social networking sites and news right from the main screen. This high end device is priced at the low end and is built for the highly connected consumer

## what's cool

| key features | consumer experience |
|---|---|
| Android™ 2.3 w/ Google Play™ | Enjoy the feature-laden Android OS from Google & access the thousands of apps, books, music and movies in the Google Play Store |
| 3.1" Capacitive Touchscreen | Use the compact, 3.1" display for easy viewing of photos, videos, and more. |
| Full QWERTY Keypad | Message, email and communicate with the ease of a full QWERTY keypad combined with a touchscreen. |

## tell it

**Did you know?**

This full featured smartphone has a 1 GHz processor for speed and web browsing with Adobe® Flash® 10 support. This means you can zip around the mobile web on your device at a very quick pace!

## who to

The Motorola XPRT is perfect for the tech savvy consumer looking for an affordable Android device. This device is perfect for the customer looking for the perfect social networking and high-end device at a reasonable price point.

# easy to

## Set Up Messaging & Social Networking Accounts

If you skipped the setup steps when you first turned on your phone, use these steps to add accounts:

1. Touch ◉ > **My Accounts** > **Add account**.
2. To sign into your account, use the user name or email and password that you set up on that account (the same as on your computer)

**Note:** You can add corporate sync (Microsoft® Exchange®), email, or social networking accounts (such as Facebook, Twitter, and more) to your phone. If you don't have accounts, you can visit their websites to set them up.

## Read and Reply to Messages

Touch ◉ > **Messaging** > **Universal Inbox**.

**Note:** Universal Inbox shows all of your messages together—text, email, and social networking messages. To show only one type of message, touch a message account type instead of Universal Inbox.

1. To **open** a text message or social networking message and all of its replies, touch it.
2. To **reply** to a message, just open it and enter your response in the text box at the bottom.
3. To **forward** a text message, touch and hold a message in the conversation, and then touch **Forward message**.

For email, touch ✉ to choose a reply or forward option.

To open **options**, touch and hold a message.

## Record Videos

1. Touch ◉ > **Camcorder**.

2. To record the video, touch ●. Touch ■ to stop the recording.
3. Open your gallery and touch a video to view options:

- To play the video, touch ▶.
- To upload the video to an online album, touch ⬆.
- To send the video in a message or post it online, touch ⚘.
- To delete the video, touch ▼ > **Delete**.

# got it

| feature | experience |
|---|---|
| 5MP Camera w/ Video | Capture life's moments in high quality photos or video |
| 1GHz Processor | The Motorola XPRT can do lots of things at once without slowing down – thanks to its zippy 1GHz processor. |
